01 The Artevo Approach — 03-06
Our team, materials offering and design-build process.

02 Residential Spaces — 07-13
Kitchens, baths, whole-home interiors, storage and shading.

03 Commercial Spaces — 14-22
Retail, clinical, workplace, hospitality and foodservice.

04 Materials & Finishes — 23-32
Millwork, stone, walls, windows, appliances and finishes.

05 Selection Library — 33-64
Cabinet construction, collections, door styles and finishes.

06 Past Projects — 65-100
Commercial, residential and multifamily project references.

07 Start a Conversation — 101
Your project, priorities and next steps.

DESIGN / BUILD / SOURCE / INSTALL

ARTEVO
STUDIOS

One team.
The whole interior.

A design-build company.
A one-stop source for your interior.

We bring interior design, materials sourcing and construction delivery together. For homes, workplaces, practices and foodservice spaces, our team connects the design vision with the selections, scope and people needed to build it.

01 **Design**

Space planning, interior concepts, finish palettes and coordinated details that respond to how the space will be used.

02 **Build**

Preconstruction, estimating, trade coordination, installation planning and project management through completion.

03 **Source**

Cabinetry, closets, storage, stone, millwork, appliances and complementary finishes brought into one material plan.

For designers,

Artevo can carry the project through design-build delivery or support a defined materials and installation package. We establish responsibilities around your design team, project scope and schedule.

ONE COORDINATED EXPERIENCE

Design decisions, material selections and construction planning move together, so your space looks cohesive, functions well and reflects the way you live or work.

The Team Behind Artevo

ARTEVO STUDIOS

Based in Northern Virginia. Connecting design, material selections and construction delivery in one team.

Artevo's Virginia-based team brings design, construction and materials together, connecting the creative brief to sourcing, site delivery and a finished interior.

Miana Tompkins

Project Management & Delivery

Miana is the connection between a client's vision and the people bringing it to life. She keeps an eye on the details while keeping clients part of the conversation. From the first plan to the final walkthrough, her focus is on clear communication, practical solutions and following through on what matters.

571-485-5851

info@artevostudios.co

Erica White

Operations & Procurement

Erica values the follow-through that turns a plan into a finished space. She sources materials and coordinates purchasing, deliveries and the day-to-day details that keep projects moving. Staying engaged when questions arise, she brings care and consistency to the process, helping clients and the team feel informed and supported from selection through installation.

202-280-0644

info@artevostudios.co

G

Gina Dayoub

Design & Preconstruction

Gina looks at a space through the eyes of the people who will use it. She brings their ideas into focus through materials, proportion and the small details that make an interior feel personal. Her approach connects creative possibility with everyday life, keeping the original vision close as the design takes shape.

571-992-6298

info@artevostudios.co

Ali Fulladi

Marketing & Sales

For Ali, every project begins with a relationship. He connects clients, makers and vendors around a shared vision, turning early conversations into possibilities the team can build on. Through marketing, sales and vendor sourcing, he values listening closely, making thoughtful connections and staying personally invested in the people behind each project.

From Vision to Finished Space

ARTEVO
STUDIOS

A coordinated process for your space, from the first brief to the final walkthrough. Bring us in early, or engage us for a defined materials and installation package.

01

Discover & Define

Start with the people, the purpose and the existing space. Confirm priorities, room uses, budget and the level of support you need.

02

Design & Plan

Develop layouts, materials and details together. Connect selections to estimates, trade pricing and a documented scope, with specialist design or engineering where required.

03

Source & Schedule

Confirm field measurements, samples, shop drawings and approvals. Align purchasing, long-lead items and deliveries with the construction and installation sequence.

04

Build & Coordinate

Coordinate trades, site access and protection of occupied areas. Resolve field questions with your designer and check the work against approved plans and selections.

05

Finish & Handover

Complete final checks and punch-list work, then provide product records, care information and agreed service follow-up so the finished space is ready for use.

WAYS TO WORK TOGETHER

Your Design. Our Support.

Full Design-Build

Design development, materials procurement and construction delivery within one agreed scope.

Materials & Installation

Keep your designer in place. Bring Artevo in for selected materials, supply and defined installation services.

Clear at Every Step

Progress updates, documented decisions and written scope changes keep clients, designers and trades working from the same plan.

RESIDENTIAL + COMMERCIAL

02 / DESIGN & BUILD

ARTEVO STUDIOS

Residential

Spaces to Call Home.

Thoughtful renovations and connected interiors, shaped around your routines, your priorities and the way you want to live.

Kitchens	08	Bathrooms	09
Whole-Home Interiors	10	Closets & Fitted Storage	11
Drapery & Shading	12	Renovation & Delivery	13

Kitchens Made for the Way You Live

ARTEVO STUDIOS

Bring layout, cabinetry, stone, appliances and lighting together around cooking, gathering and everyday routines.

Plan the experience

Shape the island, seating, preparation areas and storage around how the household moves and uses the kitchen.

Select as a whole

Coordinate cabinet profiles, surfaces, hardware, fixtures, backsplash and the appliance package in one palette.

Build the details

Connect field dimensions, utilities, ventilation, fabrication and installation to the approved design and schedule.

Bathrooms with a Considered Finish

ARTEVO STUDIOS

A coordinated approach to primary suites, family bathrooms and powder rooms, from the first layout to the final fixture.

Space & storage

Plan vanities, mirrors, linen storage and circulation around the users, the room and daily routines.

Materials & fixtures

Bring stone, tile, cabinetry, plumbing fixtures, glass and lighting into a coordinated selection package.

Renovation delivery

Coordinate demolition, plumbing, electrical, waterproofing, substrate preparation and finish installation within the agreed scope.

A Connected Vision for the Whole Home.

ARTEVO STUDIOS

Create continuity between rooms through a considered layout, a consistent material language and a coordinated renovation plan.

01 Living & Gathering

Coordinate living rooms, dining spaces and shared areas with built-ins, feature walls and integrated storage.

02 Home Offices & Flex Rooms

Shape quiet work areas, guest spaces and adaptable rooms around furniture, power and storage needs.

03 Architectural Finishes

Connect flooring, doors, trim, millwork, wall finishes, lighting and window treatments across the home.

04 Renovation Planning

Review layout changes, existing conditions, specialist inputs, trade scope and the sequence of work.

Storage, Designed Around Daily Life

ARTEVO STUDIOS

Custom closets and fitted storage bring order and function to daily life. Choose the layout, door style and interior organization together, then carry the palette into adjacent rooms.

Reach-in & Fitted

Make compact footprints work harder with a purposeful mix of hanging space, drawers, shelves and accessory organization.

Walk-in & Dressing

Develop circulation, storage zones, mirrors and integrated details as one composed dressing room.

Everyday Organization

Bring mudrooms, linen storage, laundry cabinetry and household essentials together around daily routines.

Built-in Solutions

Connect fitted shelving, media storage, pantries, utility rooms and integrated furniture elements through a consistent finish palette.

DOOR PROFILES / 63 →
FINISH PALETTE / 64 →

Drapery & Residential Shading

ARTEVO STUDIOS

Shape daylight, privacy and the softness of a room through custom drapery, layered treatments and fitted shading.

Fabric & Hardware

Consider fabric texture, lining, fullness, hem and stack-back alongside rods, tracks and decorative hardware.

Fit & Control

Review roller, honeycomb, blind and motorized options against window dimensions, privacy, daylight and control preferences.

Document measurements, fabric, mounting and controls in the finish package. Review textile certifications and recycled-content options where required.

Your Home, from Vision to Move-in

ARTEVO STUDIOS

A considered renovation starts with understanding your home. We connect each design decision to budget, timing and daily life, with clear checkpoints before the next stage.

01 Discover & Assess

Start with how you live, what works and what needs to change. Review existing conditions, measurements and household routines. Establish priorities, a budget range, contingency and target schedule.

Checkpoint: Align on priorities, scope and investment.

02 Design & Coordinate

Develop layouts and coordinate cabinetry, lighting, fixtures, storage and finishes with your designer. Bring trade input into the plan early, compare options and update pricing as the design develops.

Checkpoint: Approve the layout and design direction.

03 Select & Confirm

Review samples, specifications and lead times. Record selections, allowances, exclusions and installation responsibilities. Confirm scope, pricing and schedule; coordinate drawings and permit requirements with the responsible professionals.

Checkpoint: Sign off on selections and agreed scope.

04 Prepare & Procure

Release approved orders and track deliveries against the work sequence. Plan access, dust protection, temporary arrangements and working hours around your household. Confirm permits and site readiness before work starts.

Checkpoint: Confirm deliveries and household arrangements.

05 Build & Stay Connected

Coordinate demolition, trade work and installation against approved plans. Check work at key stages, document progress and flag decisions early. Review cost and schedule impacts before authorizing changes.

Checkpoint: Review progress and documented changes.

06 Finish & Settle In

Walk the space together, record remaining items and assign completion dates. Coordinate final inspections and equipment demonstrations. Provide care guidance, warranties and service contacts, with a follow-up plan after move-in.

Checkpoint: Review completion items and handover records.

ONE POINT OF CONTACT

A named lead connects questions, decisions and the people responsible.

VISIBLE NEXT STEPS

Agree an update rhythm and keep decisions and milestones in view.

CLEAR CHANGES

Record scope, cost and timing impacts before approving a change.

Full renovation or a defined design, materials and installation package, tailored to your project.

03 / DESIGN & BUILD

ARTEVO STUDIOS

Commercial

Built Around Your Business.

Spaces that welcome people and support the work behind them. Connect design, construction and sourcing across retail, workplace, clinical, hospitality and foodservice interiors.

Commercial Build-outs	15	Dental, Medical & Wellness	16
Workplace Design	17	Storage, Built-ins & Amenities	18
Workplace Shading & Controls	19	Hospitality Window Treatments	20
Commercial Kitchens	21	Project Delivery & Opening	22

A Complete Commercial Build-out

ARTEVO STUDIOS

We turn your operational needs into a coordinated plan for design, approvals, procurement and construction, with clear responsibilities and decision points from the start.

01 Define Success & Feasibility

Confirm workflow, staffing, equipment, brand priorities and the opening target. Review existing conditions, lease and landlord requirements, building services and access. Establish scope, budget, contingency, risks and decision-makers.

Checkpoint: Agree the brief, budget and responsibilities.

02 Design & Approvals

Align layouts, accessibility, life safety and building systems with licensed professionals. Coordinate landlord review, permit submissions and agency comments. Check how the design will be built and update costs before release.

Checkpoint: Approve plans and the submission strategy.

03 Procurement & Scheduling

Compare trade and supplier proposals against the same scope. Review samples, shop drawings and equipment details before release. Track long-lead items, approvals, delivery dates and installation dependencies in the schedule.

Checkpoint: Confirm selections, commitments and key dates.

04 Mobilize & Build

Plan protection, working hours, deliveries and shutdowns around ongoing operations. Sequence demolition, partitions, doors, glazing and ceilings with mechanical, electrical, plumbing, lighting and data work. Check rough-ins and inspections before closing walls.

Checkpoint: Verify site readiness and critical inspections.

05 Install & Verify

Coordinate flooring, wall finishes, millwork, cabinetry, stone and equipment interfaces. Track field questions and quality checks. Arrange start-up, testing and commissioning where specified; resolve issues with trades and specialists.

Checkpoint: Review installed work and system readiness.

06 Handover & Open

Complete the punch list, required final inspections and occupancy approvals. Arrange staff orientation and equipment demonstrations. Assemble warranties, operating manuals, record drawings and service contacts; track remaining items after handover.

Checkpoint: Confirm approvals, training and handover records.

COMMUNICATION

One coordination lead, agreed updates and clear owners for open actions.

COST & CHANGES

Track scope, cost and time impacts; approve changes before work proceeds.

OPENING READINESS

Connect inspection, equipment and move-in milestones to the opening plan.

Services and approvals follow the agreed scope, project requirements and responsible licensed professionals.

Dental, Medical & Wellness

ARTEVO STUDIOS

CALM FOR PATIENTS. PRACTICAL FOR TEAMS.

Designed Around Care.

Create a reassuring arrival and spaces that support the work behind it. Artevo connects your practice vision with the design, materials and construction that bring it to life.

DENTAL PRACTICES

MEDICAL + WELLNESS

Confidence at Every Visit

Chairside & support. Shape operatories, task lighting, casework, instrument-processing areas, supplies and staff spaces around your practice workflow.

Equipment ready. Resolve chair clearances, power, data, plumbing and dental air or vacuum provisions with your equipment supplier.

Space to Care Well

Care & privacy. Organize exam, consultation and wellness rooms around your services, with considered sightlines, acoustics and provider circulation.

Purposeful interiors. Coordinate counters, sinks, enclosed storage and cleanable finishes with room use, lighting and your cleaning protocols.

One Connected Build-out

01 Plan the Experience

Connect arrival, waiting, consultation and checkout with clear circulation and a consistent practice identity.

→02 Coordinate the Systems

Align specialist equipment, utilities, backing, service clearances and rough-ins with approved plans.

→03 Deliver the Details

Manage selections, procurement, delivery access and installation sequencing through equipment handoffs.

Clinical workflows and equipment requirements are defined by your team and qualified specialists.

Workplaces with Room to Perform

ARTEVO STUDIOS

Create a workplace that reflects your business and supports how your team concentrates, collaborates, meets clients and takes a break. Bring design, materials and installation into one coordinated plan.

01 Plan for the Work

Balance individual workstations, private offices, meeting rooms and shared areas around team size, working patterns and daily operations.

02 Build a Clear Identity

Coordinate reception millwork, feature walls, glazing, lighting and finishes into a consistent brand experience.

03 Meet & Collaborate

Connect conference rooms, shared tables, presentation walls and audiovisual interfaces with the team's meeting needs.

04 Focus & Privacy

Plan quiet rooms, private offices, doors, partitions and acoustic treatment around concentration, conversations and the work being done.

05 Refresh & Recharge

Bring staff kitchens, coffee points and lounge areas together with cabinetry, surfaces, appliances and seating layouts.

06 Support & Adapt

Connect power, data, shared storage, printing, personal belongings, shades and amenities to the layout and installation plan, with flexibility for future changes.

DESIGNED FOR DAILY WORK

One coordinated plan for your people, space and brand.

Storage, Built-ins & Amenities

ARTEVO STUDIOS

Bring furniture, display and concealed storage into the architecture. Plan each area around its purpose, with a consistent material palette from reception and work areas to staff and support spaces.

Display & Conceal

Balance open shelving, closed storage and display elements around the contents.

Fit the Room

Coordinate ceiling heights, wall returns, circulation, power and equipment interfaces.

Finish as One

Connect wood tones, stone, hardware and lighting throughout the built-in composition.

01 **Reception & Welcome**

Conceal supplies, organize front-desk essentials and coordinate cabinetry, counters and the client brand.

02 **Administrative Areas**

Create a place for files, printing, office supplies and shared work resources.

03 **Consultation Rooms**

Balance display and concealed storage with the furniture plan and room purpose.

04 **Staff Kitchens**

Bring cabinetry, counters and appliances together for refreshments and staff breakroom needs.

05 **Staff & Personal Storage**

Plan cupboards or lockers for coats, bags and personal belongings.

06 **General Support Spaces**

Organize non-clinical supplies by user, access frequency, security and available space.

Workplace Shading & Controls

ARTEVO STUDIOS

Connect visual comfort, privacy and daylight control to the way people meet, focus and move through the workplace.

Glare & Privacy

Review window orientation, screen use, room depth and sightlines before selecting opacity and coverage.

Motorization & Integration

Coordinate control zones, switches, power, access and integration with the project's lighting or building-control team.

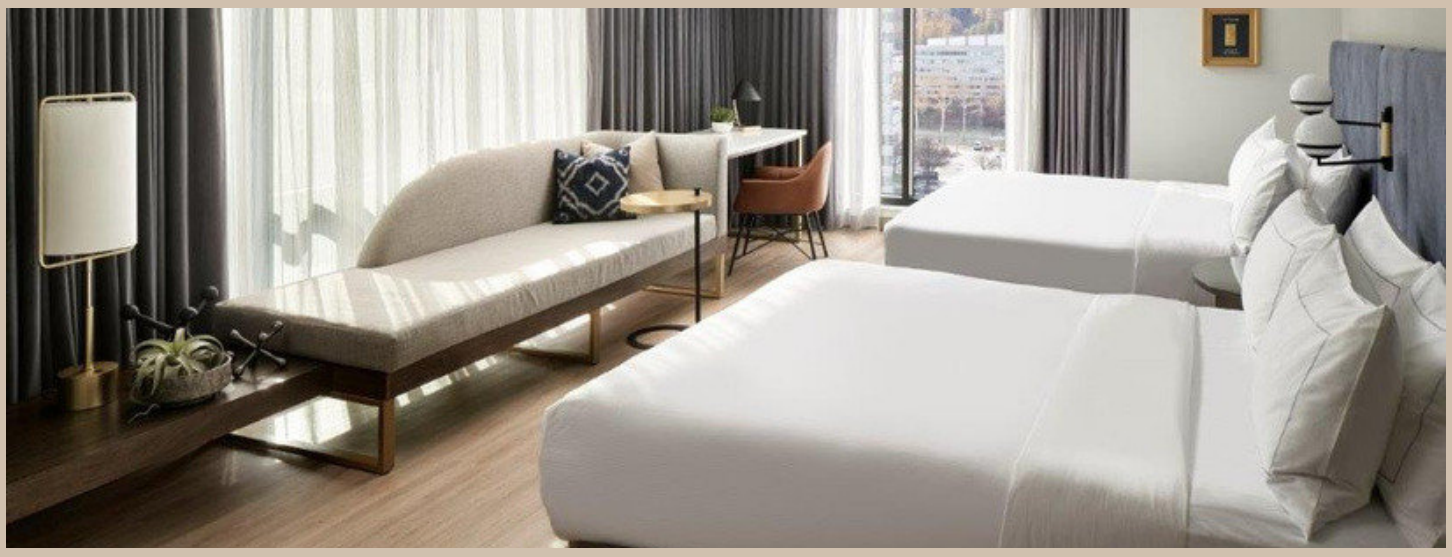

A Repeatable System

Develop consistent shade details for repeated windows, with project-specific performance documentation and installation sequencing.

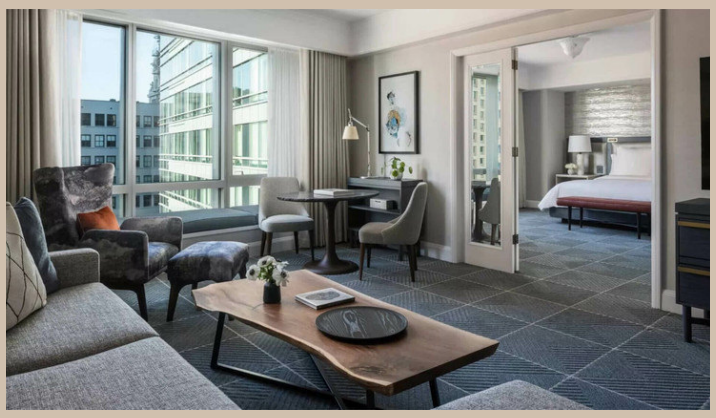

Hospitality Window Treatments

ARTEVO STUDIOS

Coordinate repeatable room standards with the atmosphere of each public space, balancing guest comfort, appearance and maintenance.

Room Standards

Define drapery, sheer and blackout layers; track or rod details; and consistent measurements across repeated rooms.

Performance Review

Confirm project-specific fire performance, low-emission options, cleanability and supplier documentation for the selected materials.

Scale & Installation

Plan prototypes, quantity schedules, fabrication batches and installation access around the property's occupancy and opening sequence.

Commercial Kitchens, Fully Coordinated

ARTEVO STUDIOS

From the first workflow plan through equipment start-up, Artevo manages the design, permitting, sourcing and installation process around your operation, budget and local requirements.

01 Design & Workflow

Start with the menu, service volume and staffing. Organize receiving, storage, prep, cooking, service and warewashing, with practical circulation, cleanable finishes and access.

02 Permits & Approvals

Manage permit applications, plan submissions and review comments. Coordinate building and trade permits with licensed professionals, plus health and fire approvals required by the local jurisdiction.

03 Equipment Selection & Sourcing

Build the equipment schedule with the operator. Compare cooking, refrigeration, ice, prep and dishwashing options against capacity, utilities, budget, lead times and service support.

04 Utilities, Ventilation & Fire

Coordinate power, gas, water, drainage, grease management, hoods, exhaust, make-up air and fire suppression. Align equipment specifications with engineered plans and local review requirements.

05 Delivery & Installation

Manage procurement, shop drawings, delivery routes and installation sequencing. Coordinate licensed trades, utility connections, manufacturer clearances and equipment start-up against approved plans.

06 Inspections & Opening

Schedule required inspections and testing, track corrections and coordinate health and occupancy approvals. Organize equipment demonstrations, warranties and operating records for a prepared handover.

LOCAL CODE COORDINATION	Aligned to the adopted codes in your project's jurisdiction.

From Tenant Brief to Opening Day

ARTEVO STUDIOS

A clear sequence makes design decisions, landlord requirements, procurement and construction work together.

01

Define the business brief

Confirm the space, room program, equipment, budget, occupancy target and roles of the owner, designer and delivery team.

02

Resolve before construction

Review existing conditions, consultant inputs, landlord criteria, approval requirements and long-lead selections.

03

Coordinate the build-out

Track submittals, trade sequencing, equipment rough-ins, material deliveries and field decisions against the agreed scope.

04

Prepare for turnover

Coordinate inspections, equipment and furniture handoffs, punch-list work, operating records and the move-in plan.

RENOVATING AN OCCUPIED BUSINESS?

Plan access, temporary protection, work hours and phased handovers around business operations and the practical conditions of the site.

Millwork That Defines the Interior

ARTEVO STUDIOS

Custom millwork gives a space its architectural character, from the first impression to the details experienced every day.

Reception & work areas

Reception fronts, fitted desks, consultation furniture and integrated storage.

Architectural details

Wall paneling, wainscoting, trim, door surrounds and custom feature elements.

A tailored composition

Profiles, proportions, grain, finish and hardware developed around the design intent.

From Millwork Concept to Installation

ARTEVO STUDIOS

Make the details work together.

Measure & define

Record site conditions, overall dimensions, contents and intended use.

Detail & approve

Review profiles, reveals, grain direction, finishes, hardware and shop drawings.

Fabricate & install

Align production, field verification, delivery access and installation sequencing.

COORDINATION IS PART OF THE DESIGN

Bring counters, equipment, integrated lighting and wall finishes into the millwork review before fabrication. Each interface should be resolved in the approved package.

Stone & Surfaces That Complete the Space

ARTEVO STUDIOS

Artevo connects stone selection, fabrication coordination and installation with the surrounding cabinetry and interior finishes.

Natural stone

Explore granite, marble and quartzite as part of the project palette, reviewing the actual slab and finish.

Engineered surfaces

Compare quartz and other specified surface options against the room use, appearance and care needs.

Fabricated details

Coordinate worktops, vanity tops, reception counters, backsplashes, edges, cutouts and returns.

Image illustrates surface composition; it is not a labeled stone sample. Final material selection is made from physical samples or slabs.

From Surface Selection to Final Fit

ARTEVO STUDIOS

A successful installation starts with the relationship between the slab, cabinetry, equipment and room conditions.

01 Select & approve

Review the slab or sample, color variation, finish, thickness and proposed seam locations.

02 Template & coordinate

Confirm installed supports, field dimensions, sinks, taps, appliances and required cutouts.

03 Detail & fabricate

Approve edge profiles, overhangs, corners, backsplashes and connections to adjoining finishes.

04 Install & hand over

Align site readiness and access, complete installation checks and provide product-specific care information.

Texture, Light & Privacy

ARTEVO STUDIOS

Bring architectural wall finishes and window treatments into one palette, balancing visual character, daylight control and privacy throughout the space.

Walls with Character

Architectural Wall Panels

Wood and veneer, decorative MDF, textured panels and fabric-wrapped or acoustic options. Coordinate panel rhythm, joints, corners and access requirements.

Designer Wallcoverings

Pattern, texture and custom-print directions that carry the client identity into reception, collaboration and consultation areas.

Windows with Purpose

Shades & Blinds

Roller, solar, honeycomb and blind options coordinated with the room and window geometry.

Drapery & Hardware

Fabric, lining, fullness, tracks and decorative hardware selected as part of the finish palette.

Motorized Options

Coordinate controls, power, mounting and access early with the project team.

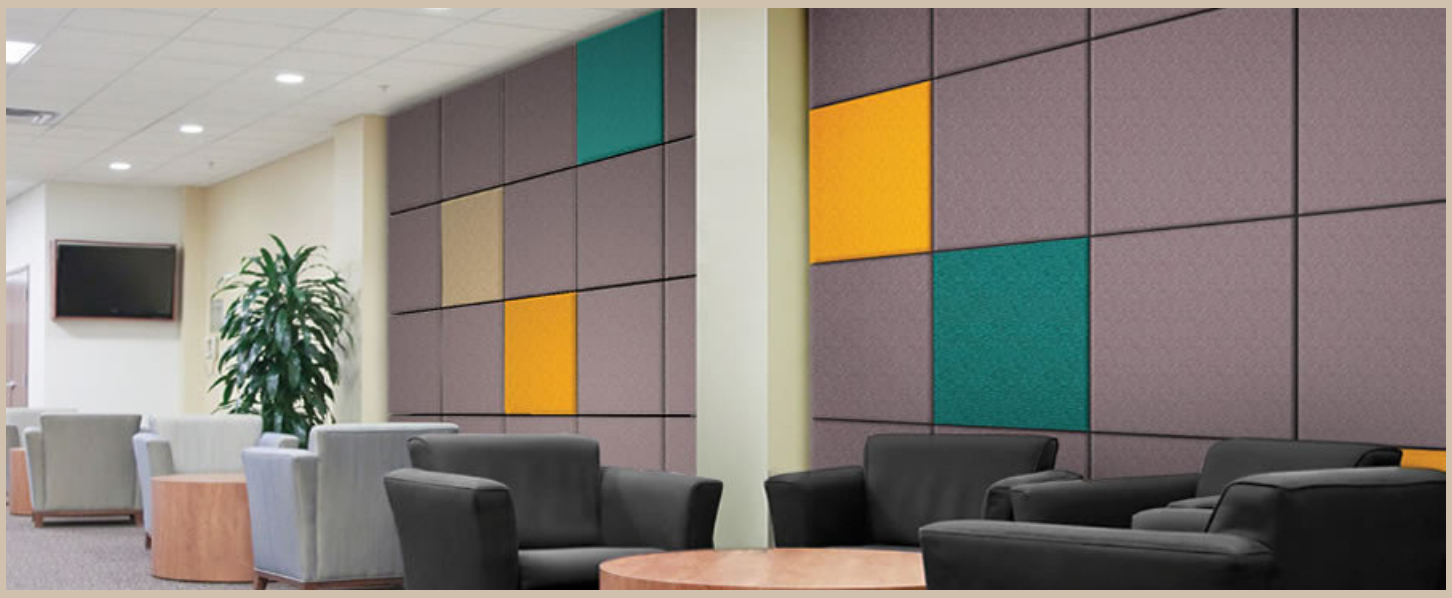

SELECT AS ONE PALETTE

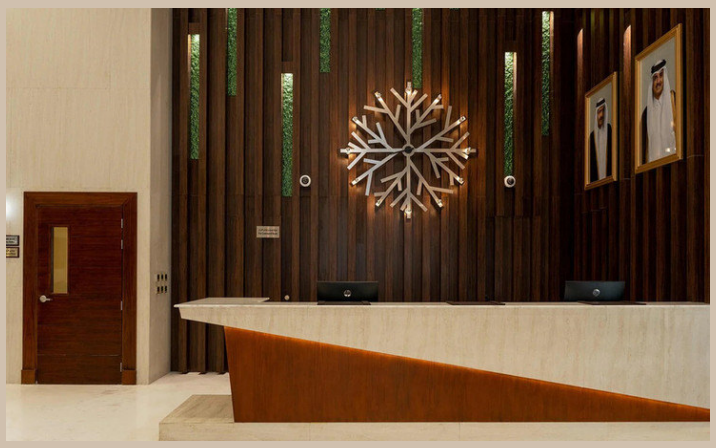

Review samples, substrate preparation, seams, cleanability and the project-specific performance requirements before confirming the system.

Architectural Wall Panels

ARTEVO STUDIOS

Give a room depth, rhythm and acoustic character with panels that work as part of the architecture.

Materials & Formats

Explore natural wood and veneer, textured MDF, flexible slats, acoustic panels and fabric-wrapped systems.

Detailing & Installation

Coordinate module sizes, joints, edges, corners, door interfaces, backing and access panels before fabrication.

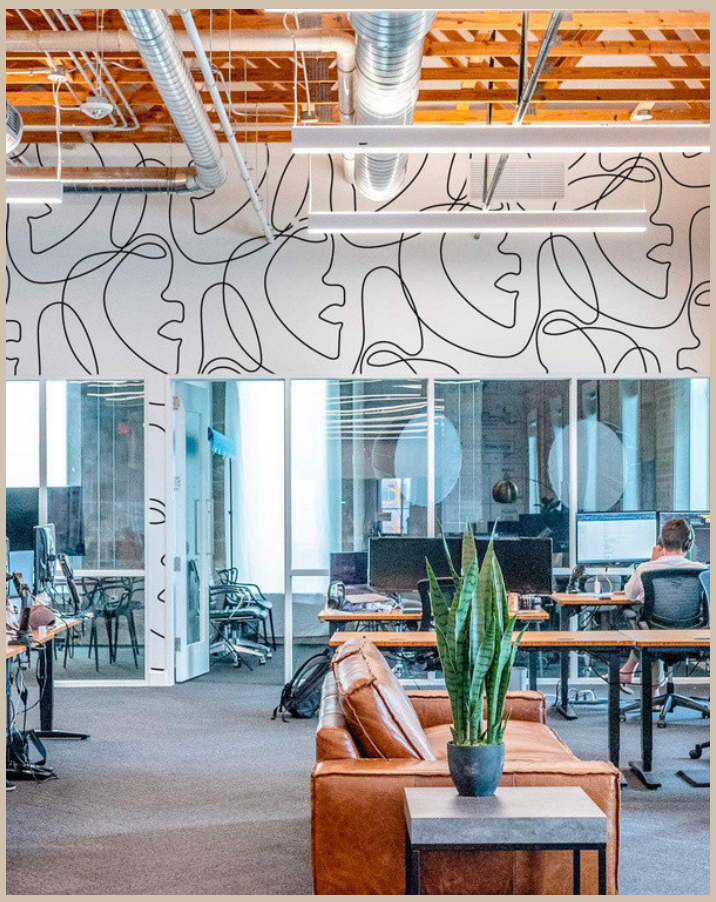

Interior and exterior applications require different system choices. Confirm the selected assembly’s intended use and performance with the supplier.

Wallcoverings with Character

ARTEVO STUDIOS

Use pattern, texture and custom-print directions to connect a space with the people and identity it represents.

Specify the Whole Surface

Review scale, repeat, seam placement, substrate preparation and corner details together. For high-traffic or specialist settings, confirm durability, cleaning requirements and available low-emission or fire-performance documentation for the selected product.

Shade & Blind Reference Gallery

ARTEVO STUDIOS

Compare light-filtering, room-darkening and adjustable shading directions. The source catalogue includes Hunter Douglas examples across several product types.

ADJUSTABLE LIGHT & VIEW

LAYERED SHADING

TEXTURED FABRIC

SOFT VANES

VERTICAL SOLUTIONS

WOOD BLINDS

CELLULAR SHADING

LIGHT & PRIVACY

Manufacturer imagery is a visual reference. Confirm current systems, controls, dimensions and availability for the project.

Kitchen & Breakroom Appliances

ARTEVO STUDIOS

Bring appliances, cabinetry and building services into the same conversation. We help shape a package around the space, its daily use and the installation plan.

Refrigeration

GE GSE25GYPFS

Plan capacity, door swing and the cabinet opening.

Cooking

GE GRS500PVSS

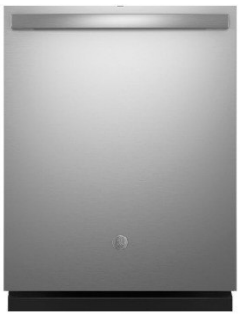

Coordinate the range, clearances and countertop interfaces.

Ventilation

GE UVW8301SLSS

Resolve the hood, exhaust route and cabinetry early.

Dishwashing

GE GDT535PSRSS

Place cleaning close to daily tasks and water connections.

Microwaves

GE JNM3163RJSS

Coordinate placement, mounting and convenient access.

Disposal

GE GFC325N

Plan the sink connection and access for maintenance.

COORDINATED BEFORE ORDERING

One schedule for models, finishes, cabinet openings and utility connections. Confirm site measurements, handling routes, service access and delivery timing before the package is released.

PRODUCT REFERENCES / Supplied GE Appliances guide; GE Appliances. Final equipment is selected for project use.

Laundry, Designed Around the Day

ARTEVO STUDIOS

From everyday routines to demanding operations, we plan the equipment, storage and work surfaces as one complete laundry space.

01 / RESIDENTIAL

Built Around Your Routine

Flexible layouts, folding surfaces and storage that make daily tasks feel easier.

Side-by-side or stacked equipment
Cabinetry, hampers & counters
Considered placement within the home

02 / COMMERCIAL

Ready for Daily Demand

Plan around linen volume, staffing and the movement from sorting through washing, drying and storage.

Equipment matched to daily capacity
Space for carts, folding & linen storage
Durable finishes & maintenance access

ONE COORDINATED PLAN

Layout

Equipment fit, door swings and working clearances.

Services

Water, drainage, power and dryer ventilation.

Installation

Delivery access, accessories and final connections.

PHOTO REFERENCES / GE Appliances; Miele Professional. Equipment specified to the project and intended use.

The Cabinetry & Finish Library

ARTEVO STUDIOS

Explore the cabinet collections as one part of Artevo's wider design-build and materials offering. Pair profiles and finishes with the stone, millwork and appliance package.

Additional source offering: WellKraft framed cabinetry and project-based framed, frameless and full-custom programs. Confirm specifications, availability and intended use for the selected package.

What's Inside Matters

ARTEVO STUDIOS

Look beyond the finish. How a cabinet is built shapes the way it opens, stores and stands up to everyday use.

01 Doors & Drawers

Review door construction, drawer joinery and hardware against the way the room will be used.

02 Box & Shelves

Confirm cabinet-box materials, thicknesses, shelf adjustment and load requirements.

03 Hinges & Glides

Check operating clearances, access, hardware duty and any required locking provisions.

04 Finishing Details

Coordinate exposed ends, interiors, fillers, trim and handles as part of the full design.

Review It as a System.

Start with the room, how often it is used and the finish requirements. Then confirm the exact cabinet line, intended-use suitability and warranty before selection.

NEXT / COMPARE OPTIONS

Framed, Frameless & Inset →

Conceptual illustration. Construction details and available options vary by the selected manufacturer and cabinet line.

Framed, Frameless & Inset

ARTEVO STUDIOS

Compare the cabinet box and the way the doors sit. Use the same lens for every option: appearance, access and the details that need coordination.

01

Framed

FACE FRAME + OVERLAY

A frame sits at the front of the cabinet box. Overlay doors and drawers cover part or most of it.

THE LOOK

The amount of visible frame changes with the selected overlay.

02

Frameless

BOX + FULL-ACCESS OPENING

Doors and drawers attach to the cabinet box, without a separate face frame at the front.

THE LOOK

Closely spaced fronts create a continuous, clean-lined surface.

03

Inset

FRAMED + FLUSH FRONTS

Doors and drawers sit within the face-frame openings, with the frame visible around them.

THE LOOK

Defined reveals give the cabinetry a tailored, furniture-like appearance.

BEFORE YOU CHOOSE

Balance style, access, detailing and budget. Review the door profile, box construction and hardware together.

EXPLORE COLLECTIONS

Library / 33 →

Simplified illustrations; framed example shows partial overlay and inset example shows flush inset. Profiles are illustrative.

Specialty Finishes

ARTEVO STUDIOS

Aged

The Aged Technique is a predetermined selection of numerous finish techniques to create a worn and aged appearance. The techniques possible are: edge and panel gouging, worm holing, rock dents, and wearing. The level of “Aging is very random and inconsistent form piece to piece. The Aged Technique can be applied to all wood species (excludes Select Poplar) on any stain or paint color, but is not compatible with Olde World finishes.

Aged Finish Techniques

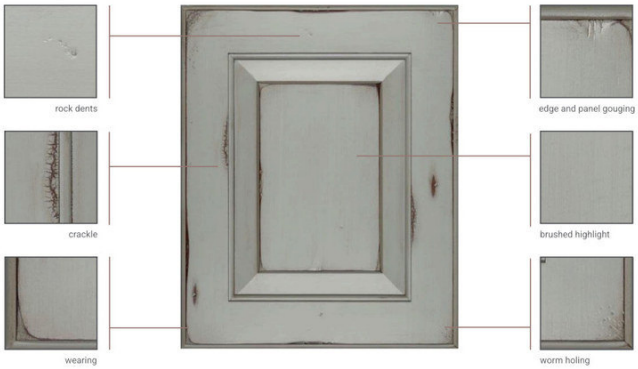

Olde World

Olde World is painted finish, hand-distressed to simulate an old and heavily worn apperance. The Olde World finish features a random combination of some, or all of, the following finish techniques: rock dents, crackle, wearing, edge and panel gouging, brushed highlight, worm holing and more. Olde World is availabe on a select number of standard paint colors and on most wood species.
